CAREER SUMMARY

Highly motivated B.Tech Computer Science and Engineering student, passionate about web development. I specialize in building responsive and scalable applications using technologies like ReactJS, NodeJS, MongoDB, and SQL. With a strong foundation in both front-end and back-end development, I am eager to apply my academic knowledge and internship experiences to create real-world solutions and contribute to meaningful projects in the tech industry. I am constantly looking for opportunities to expand and refine my skills.

TECHNICAL SKILLS

Languages: Python(Advanced), C , Java

Developer Tools: VS Code, PyCharm

Technologies/Frameworks: GitHub, ReactJS, NextJS, NodeJS, ExpressJS, Git, MongoDB

Operating Systems: Linux, Windows, macOS

PROJECTS

Hospital Management System | React, Mongoddb Used

02 2025

- Developed a comprehensive hospital management system to manage patient records, appointments, staff schedules, and billing. Implemented features like real-time patient tracking, automated scheduling, and data analytics.

Portfolio | Personal and Academic Project

05 2025

- A collection of various personal and academic projects including web development, machine learning, and software engineering. Hosted on GitHub with complete documentation.
- [View Portfolio](#)

Learning Management System | React, SpringBoot Used

09 2025

- Designed and developed an LMS to facilitate online course management, student registration, assignments, and grading. Integrated video streaming, interactive quizzes, and real-time feedback systems for students and instructors.

EDUCATION

B.Tech - Computer Science and Engineering

2023 – 2027

KL University, Vijayawada

CGPA: 8.34

CERTIFICATIONS

Microsoft Azure
